

 **COOLON**  
LED LIGHTING

# GREEN EYE WASH LED

ULTRA-BRIGHT, **GREEN**  
SAFETY INDICATORS  
FOR EYEWASH STATIONS

## Small light. Big impact.

**Dangerous chemicals** are present on most industrial and mining sites. To prevent any **severe eye damage** should an accident occur, the industry standard is to use **green LED lights** next to the **eyewash stations**.

When the eyesight is compromised, **green** is the last colour a person is able to **differentiate**, leading them to the life-saving eyewash station.

## Choose your champion

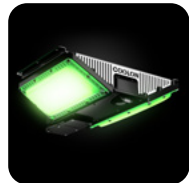

Whatever your site. Whatever your application. Whatever your requirements. We have the perfect option for your eyewash station.

### Eye Wash Station LED

Our speciality fitting designed for the Eyewash Stations. Replaces the existing fluorescent lights, reduces maintenance and improves the visibility of a typical eyewash indicator luminaire.

**IDEAL FOR:**  
Spigot Mount, Mains Powered

### EMTNR2

EMDLK2's fraternal twin. Featuring the same benefits as EMDLK2. The EMTNR2 is perfect for tunnel or other on-ceiling installations.

**IDEAL FOR:**  
Clamp Mount, Mains Powered

### EMDLK2

EMDLK2 is our signature conveyor/area light equipped with an in-built smart back up emergency battery and compatible with Coolon Reporter App.

**IDEAL FOR:**  
Spigot Mount, Emergency

### EM Bulkhead

High performance, versatile, retrofit compatible LED bulkhead light. Available with an emergency backup battery, EM Bulkhead is a fitting you can rely on.

**IDEAL FOR:**  
Surface Mount, Emergency

## Effortless installation

We have designed a green luminaire to effortlessly fit on any **mount**, ranging from a **spigot** to a **clamp**. Enjoy a quick and simple **installation** process, regardless of your particular application.

## Easy retrofit

Eye Wash LED and EMDLK2 have been specifically designed to fit onto an **industry-standard spigot mount**. The quick and easy **retrofit** design ensures that upgrade costs are minimized.

## Emergency Operation

Eye Wash Station LED, EMDLK2, EMTNR2 and EM Bulkhead offer an **emergency backup battery** which allows the unit to continue working over **2 hours** in the event of a **power outage**. Controlled by Coolon's own purpose-developed **smart controller** that constantly monitors charge levels and ensures **operational readiness** in the toughest mining environment.

## Coolon Reporter App

EMTNR2, EMDLK2 and EM Bulkhead are compatible with free Coolon Reporter App. Simply walk up to a luminaire, **open the app** and press **scan**. Immediately, you'll see a **full report** on all nearby fittings:

- Power outages experienced by the battery
- Charge rates
- Charge capacity
- Battery health

Inspections and reports have never been that **easy**.

Search **Coolon Reporter** on the App Store or Google Play.

Ordering Example

**EMTNR2 - GRN - SY1 - MP**

PRODUCT      COLOUR TEMPERATURE      OPTICS      SUPPLY OPTION

PRODUCT	COLOUR TEMP.		OPTICS	SUPPLY OPTION
