

 COOLON

CP22 - SUPERBEAM

75W LED Flood Light

Advanced long-distance illumination: Super bright, super narrow train light designed to project over 100m.

The CP22 - Superbeam is an exceptionally bright, narrow train light designed to project up to 100 meters. This luminaire is perfect for long-distance, narrow beam illumination with low power consumption. Its robust construction ensures durability, even under continuous exposure to vibration and harsh elements.

Each component of the CP22 LED luminaire is meticulously engineered to deliver reliable performance, showcasing the numerous advantages of solid-state lighting technology in industrial applications.

Designed for use in:

- Rail Track Machines
- Rail Locomotives
- Rail Mobile Stock
- Navigational Beam Light
- Trucks

 DESIGNED &
MANUFACTURED
IN AUSTRALIA

Peak intensity
of > 300,000Cd

Created Specifically to comply with AS7531.4-2007 Australian Standard for Railway Rolling Stock Lighting and Rolling Stock Visibility.

Headlight arrangements on track machined able to travel at speeds greater than 60km/h and weighing more than 20 tonnes gross mass shall produce a peak intensity of at least 300,000 candella.

Robust built and highly resistant to vibration

Closely based on its mining predecessors, CP22 inherits all the robustness and indestructibility required for the harshest of environments.

Luminaire's body and mounting brackets have been specifically engineered to survive the prolonged exposure to varying levels of vibration and its effects of harmonic resonance.

L70

LONG USEFUL OPERATING LIFE

At Coolon we believe the lifetime of a luminaire is so much more than just the LED's. Coolon product lifetime takes the entire luminaire into consideration and each product is backed by a comprehensive warranty – that's the Coolon confidence.

INSTANT ON/OFF

LEDs do not require warm up. Instant on to 100% output translates to no downtime, improved safety and the ability to utilize sensor switching to significantly save energy.

COOL SURFACE TEMPERATURE

Coolon's Industrial LED fittings have a much lower surface temperature than traditional HID equivalents which prevents dirt from baking onto the luminaire. This allows for easier cleaning and will prolong the lifespan of the luminaire.

IP66

HIGH IP RATING - IP66

Coolon's Industrial LEDs are designed specifically to withstand the harsh conditions in mining environments. The robust design allows our LED products to be used in many different applications and are high pressure washable.

UNRESTRICTED BURNING POSITION

Coolon's LED luminaires can be positioned and oriented in any desired way without affecting the lifespan of the product. This gives greater flexibility when it comes to aiming angles and orientation.

EXTRA LOW VOLTAGE OPERATION

Our products operate on extra low voltage DC power. It is substantially safer to work with than conventional mains powered light sources.

**3
YEARS**

3 YEARS FACTORY WARRANTY

Coolon Luminaires are covered by a solid comprehensible manufacturer's warranty that covers a range of possible defects and performance parameters throughout the duration of the warranty period.

PROUDLY MADE IN AUSTRALIA

Engineered to perfection, using only the highest quality components and highly skilled labour, each luminaire is assembled and thoroughly tested to ensure that it exceeds the highest standards.

DIMENSIONS

CONFIGURATION

TECHNICAL SPECIFICATIONS

Product	CP22-Superbeam
Model	CP22-SB
Optical Characteristics	
Peak Cd Intensity	305,000 Cd
CCT	NWT / CWT
CRI	>70
Electrical Characteristics (Luminaire)	
Power Consumption	75W Typical, 85W Startup
Nominal Voltage	24VDC
Voltage Range	18 – 30VDC
Cable Type	UL2095, 16 AWG x 2C Braid PVC, UV Resistant with Deutsch DT04-2P Connector
Cable Diameter	7.5mm
Cable Length	200mm

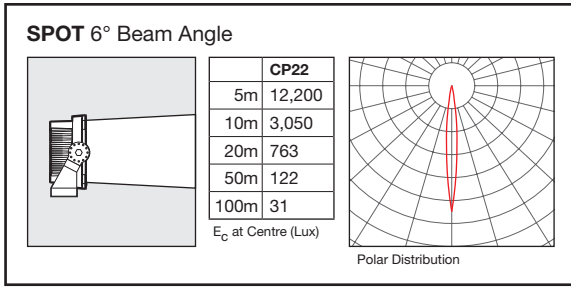

Environmental	
IP Rating	IP66
Impact Rating	IK09
Salt Spray Tested	Yes
Operating Temp. Range	-20 to +50°C
Thermal Management Type	Active/Continuous
Expected Lifespan	50,000 Hours to 70% Brightness
Material Composition (Body)	LM6 Aluminium Alloy (<0.1% copper content)
Material Composition (Optics)	PMMA
Material Composition (Cover)	Toughened Glass Polyester powder coated

Weight/Packaging	
Luminaire Weight	4kg
Bracket Weight	2kg
Packaging Dimensions	280 x 280 x 140mm
Packaging Weight	6.4kg

Warranty	
Warranty	3 years warranty as standard 5 years extended warranty optional

¹ Optical and electrical characteristics are measured using Neutral White LEDs (NWT). Reading taken while test unit operating in steady state. Ambient temperature during testing is typically 25°C. Individual unit behaviour may differ due to electronic component tolerance and ambient conditions. Product parameters and application suitability shall be checked by the user prior to commissioning.
