

# **COOLON**

# **CP22 - SUPERBEAM**

75W LED Flood Light

Advanced long-distance illumination: Super bright, super narrow train light designed to project over 100m.

The CP22 - Superbeam is an exceptionally bright, narrow train light designed to project up to 100 meters. This luminaire is perfect for long-distance, narrow beam illumination with low power consumption. Its robust construction ensures durability, even under continuous exposure to vibration and harsh elements.

Each component of the CP22 LED luminaire is meticulously engineered to deliver reliable performance, showcasing the numerous advantages of solid-state lighting technology in industrial applications.

#### Designed for use in:

- Rail Track Machines
- Rail Locomotives
- Rail Mobile Stock
- Navigational Beam Light
- Trucks

Created Specifically to comply with AS7531.4-2007 Australian Standard for Railway Rolling Stock Lighting and Rolling Stock Visibility.

Headlight arrangements on track machined able to travel at speeds greater than 60km/h and weighing more than 20 tonnes gross mass shall produce a peak

#### LONG USEFUL OPERATING LIFE

At Coolon we believe the lifetime of a luminaire is so much more than just the LED's. Coolon product lifetime takes the entire luminaire into consideration and each product is backed by a comprehensive warranty – that's the Coolon confidence.

#### **COOL SURFACE TEMPERATURE**

Coolon's Industrial LED fittings have a much lower surface temperature than traditional HID equivalents which prevents dirt from baking onto the luminaire. This allows for easier cleaning and will prolong the lifespan of the luminaire.

#### **UNRESTRICTED BURNING POSITION**

Coolon's LED luminaires can be positioned and oriented in any desired way without affecting the lifespan of the product. This gives greater flexibility when it comes to aiming angles and orientation.

# **3 YEARS FACTORY WARRANTY**

Coolon Luminaires are covered by a solid comprehensible manufacturer's warranty that covers a range of possible defects and performance parameters throughout the duration of the warranty period.

#### **INSTANT ON/OFF**

LEDs do not require warm up. Instant on to 100% output translates to no downtime, improved safety and the ability to utilize sensor switching to significantly save energy.

#### **HIGH IP RATING - IP66**

Coolon's Industrial LEDs are designed specifically to withstand the harsh conditions in mining environments. The robust design allows our LED products to be used in many different applications and are high pressure washable.

#### **EXTRA LOW VOLTAGE OPERATION**

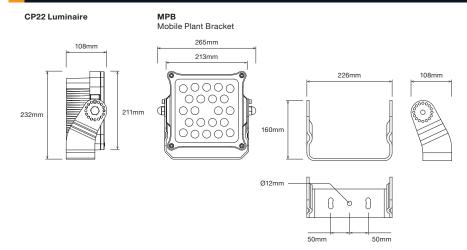

Our products operate on extra low voltage DC power. It is substantially safer to work with than conventional mains powered light sources.

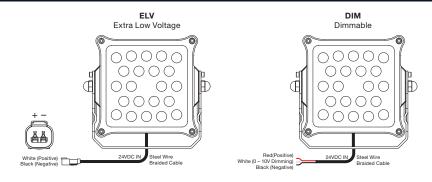

#### **PROUDLY MADE IN AUSTRALIA**

Engineered to perfection, using only the highest quality components and highly skilled labour, each luminaire is assembled and thoroughly tested to ensure that it exceeds the highest standards.

#### DIMENSIONS

# CONFIGURATION

Luminaire supplied with DT04-2P, the DT06-2S should be used as a mating connector

#### **TECHNICAL SPECIFICATIONS**

Product	CP22-Superbeam					
Model	CP22-SB					
Optical Characteristics						
Peak Cd Intensity	375,580 Cd					
CCT	NWT / CWT					
CRI	>70					

#### **Electrical Characteristics (Luminaire)**

Power Consumption	75W Typical, 85W Startup 24VDC					
Nominal Voltage						
Voltage Range	18 – 30VDC					
Cable Type	UL2095, 16 AWG x 2C Braid PVC, UV Resistant with Deutsch DT04-2P Connector					
Cable Diameter	7.5mm					
Cable Length	200mm					

Environmental						
IP Rating	IP66					
Impact Rating	IK09					
Salt Spray Tested	Yes					
Operating Temp. Range	-20 to +50°C					
Thermal Management Type	Active/Continuous					
Expected Lifespan	50,000 Hours to 70% Brightness					
Material Composition (Body)	LM6 Aluminium Alloy (<0.1% copper content)					
Material Composition (Optics)	PMMA					
Material Composition (Cover)	Toughened Glass Polyester powder coated					

#### Weight/Packaging

Luminaire Weight	4kg					
Bracket Weight	2kg					
Packaging Dimensions	280 x 280 x 140mm					
Packaging Weight	6.4kg					

#### Compliance (Safety)

AS/NZS 60598.1	Luminaires - General Requirements and Tests
AS/NZS 60598.2.1	Luminaires - Particular requirements - Fixed
	general purpose luminaires

#### Compliance (EMC)

AN/NZS CISPR15 Limits and methods of measurement of radio disturbance characteristics of electrical lighting and similar equipment

#### Warranty

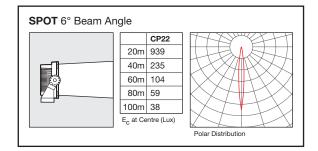

Warranty 3 years warranty as standard 5 years extended warranty optional

Reading taken while test unit operating in steady state. Ambient temperature during testing is typically 25°C. Individual unit behaviour may differ due to electronic component tolerance and ambient conditions. Product parameters and application suitability shall be checked by the user prior to commissioning.

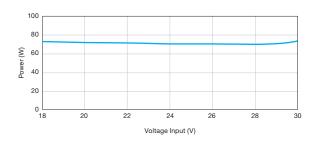

<sup>&</sup>lt;sup>1</sup> Optical and electrical characteristics are measured using Neutral White LEDs (NWT).

# ILLUMINANCE AT DISTANCE

# SUPPLY VOLTAGE VS POWER

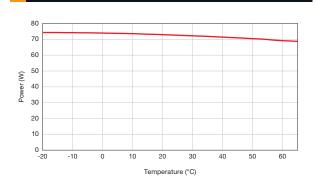

#### DIMMING VOLTAGE VS POWER

#### Cut-off voltage 10V ± 1

# AMBIENT TEMPERATURE VS POWER

# ORDERING EXAMPLE

PRODUCT	TYPE		COLOUR TEMPERATURE		OPTIC		MOUNTING		CONFIGURATION	
CP22	SB	Superbeam	NWT	Neutral White	SPOT	6° Beam Angle	MPB	Mobile Plant Bracket	ELV	Extra Low Voltage
			CWT	Cool White					DIM	3 Wires 0 - 10V Dimming
